[Verse 1]

It feels like I've been here
I guess we've been here before
C F
Stuck in this bad dream, caught in a vicious circle
C F
You're like no other, got so much anger to tame
Am G F
This falling out between us is slowly driving me insane

I'm not one of those who risk everything for love
'Cause it's so easy to fail
F G
We're stranded here at the end of the road
Em F
It's cold, with nothing left to say
F G
I miss the candor and the innocence
Em F
That we've lost along the way

Will you give me a reason or throw me a line

Before we go our separate ways

We're drowning here in silence

Swim ashore to find a way

We took it a step too far
